Variation No. 1 of the Wexford County Development Plan

The National Planning Framework – First Revision, which issued in April 2025, identified a need to provide 50,000 housing units per annum in the state. The Minister for Housing, Local Government and Heritage subsequently issued Section 28 Guidelines to implement this target. The Guidelines identify Housing Growth Requirements (HGR) for each County. County Wexford has been allocated the fifth highest percentage increase nationally under the new HGR with an increase from 1,072 units to 1,622 units per annum for the period 2025-2034. To implement the revised Housing Growth Requirements (HGR) arising out of revised National Planning Framework, Wexford County Council will initiate the statutory process for Variation No. 1 of the Wexford County Development Plan. Variation No. 1 amends the Core Strategy and land use zoning and objectives for Enniscorthy and New Ross to replace expire plans. The public display period for Variation No. 1 will run for a 4-week period between mid-February and mid-March, where submission and observations can be made on the proposed land use zonings and core strategy. A series of additional variations are to commence in the coming months, in further response to the National Planning Framework – First Revision.

CLIMATE ACTION

WCC is behind on our glide path for Thermal and Transport emissions. If HVO is not used for our fleet, in a significant way, Wexford County Council will not meet our CO2 target of 51% reduction by 2030. Currently we are above CO2 emissions from the baseline years of 2016-2018, so we now require over 51% reduction by 2030. The pathfinder projects will address the thermal requirements.

1. The Climate Action team are working on a number of reporting requirements for the LACAP for 2025 with the following information submitted to the LGMA in the last week of January

- · Data on 10 specific KPI for 2025
- · Report on the Progress of the 133 actions in the LACAP for 2025.

Over 50 staff members are involved in updating the progress of actions in the Climate Plan.

2. An Implementation report for the elected members on the Climate Plan is currently being prepared. It is proposed that an overview of the report will be provided at the March meeting of the elected members. This is an annual requirement.

3. Promotion of the Over 55s Climate Course continues with video and flyers shared through social media channels- both Wexford County Council and community/voluntary groups. Adverts are also running in all local papers for 3 weeks. The course commences on Wed February 25th and anyone interested is asked to register at climateaction@wexfordcoco.ie or phone 053 9196029.

4. The remaining drivers will complete the practical module for the Eco Driving in February. Nineteen fleet drivers will have completed this training then.

This exciting project will be the first building in Wexford County Councils SEAI funded Pathfinder Programme.

b) Ferrybank Leisure Centre – Emergency Enabling Works (Air Handling Unit Replacement) SEAI have approved match funding (50%) for the Ferrybank LC emergency air handling unit replacement works awarded to Mechanical Contractor Aircon Mech Ltd.

COMMUNITY CLIMATE ACTION PROGRAMME (CCAP)

Wexford County Council has been allocated a further €669,000 under Phase 2 for not-for-profit organisations to undertake Community Climate Action projects. The portal was open for 8 weeks for applications up to 16th December.

36 applications were received for phase 2, totalling €1.46 million. The applications were spread across the five municipal districts. Fifteen applications were received for funding in the small scale funding category with 13 applications in the medium scale and 8 in the large scale funding . These applications are currently being evaluated; applicants are expected to be notified towards the end of March as to the outcome of their application.

The CCCAP Phase 1 projects are still progressing with 11 of the 16 projects fully completed.

Biodiversity

The actions developed during the making of the Wexford Draft Biodiversity Action Plan have been screened for Appropriate Assessment and Strategic Environmental Assessment. The outcome of the screening process has determined that the actions set out in the draft plan are not likely to have significant negative effects on the environment and the plan can now proceed to public consultation once final edits are made and the document is translated into Irish. These final edits will be complete by end of January and translation complete by mid to late February. Each Municipal District will have a public consultation event during this six week period as well as placing the documents on the Consult portal inviting public submissions.

Local Biodiversity Action funding amounting to €96,000 has been announced from the Department of Housing, Local Government and Heritage. This fund is available for the Council to cover County wide projects such as the Wetlands Survey of Wexford (phase 4), Swift surveys of New Ross and Enniscorthy, Invasive species surveys and control, biodiversity events and awareness raising and the Return to Nature and Hare's Corner projects which support faith communities, landowners and community groups to implement actions for enhanced biodiversity on their lands.

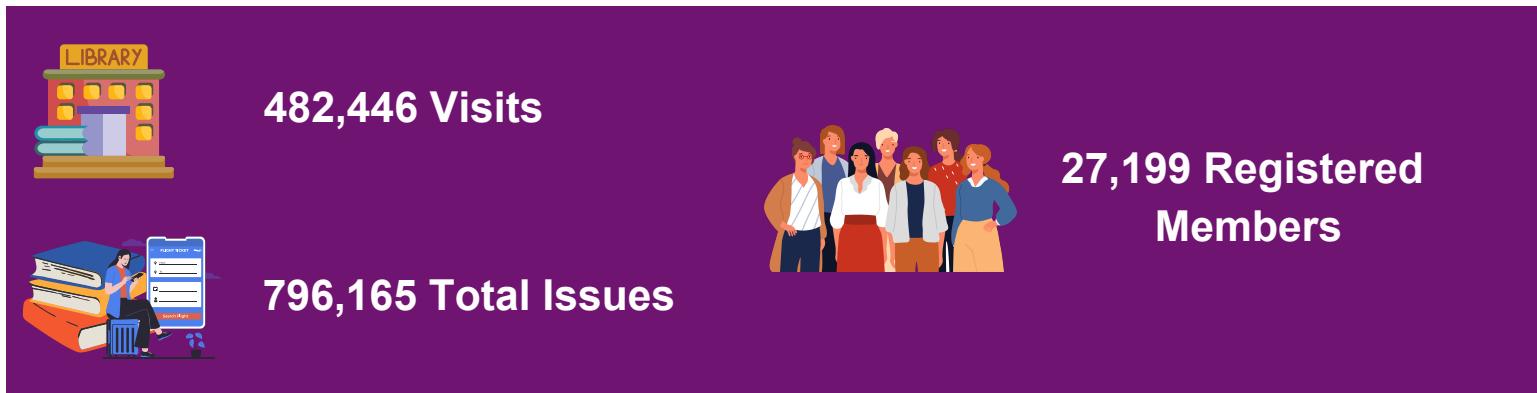

Over 124 applications have been received to date for the Hare's Corner initiative by Burren Beo Trust and supported by the Biodiversity office. Inspired by the term 'The Hare's Corner' - an old farming expression for an awkward section of a field which wasn't intensively farmed and so was 'left to nature', the aim of this project is to help create habitats that have proven benefits for biodiversity, climate-action as well as the well being of participants.
