## **Background**

The Programme for Government published in June 2020 includes ambitious targets, together with a significant provision of additional funding, for the development of walking and cycling schemes. The primary aim of this funding is to support the development of high-quality cycling and walking infrastructure across the State.

Increased numbers of people choosing an active mode of transport benefits society and the economy in a number of different ways. An acknowledged barrier to achieving a significant shift in the numbers of people making that choice is actual and perceived issues in relation to safety and accessibility. Improved, expanded and integrated networks of active travel infrastructure can address that barrier and support the fundamental change in the nature of Transport in Ireland needed to address our climate action challenge.

In recent months the National Transport Authority (NTA) has developed a five-year walking and cycling infrastructure delivery plan.

Wexford County Council is keen to promote a multi-disciplinary team approach to the development and delivery of projects under the Active Travel programme. This is beneficial in terms of enhancing the overall quality of projects and brings additional skill sets to assist in the delivery of the programme.

As part of this programme Wexford County Council will employ a Cycling & Walking Officer, who will be responsible for communication and promotion of cycling and walking programmes throughout the county.
