Introduction

Wexford County Council has completed the Quality Assurance (QA) requirements as set out in the Public Spending Code and the purpose of this report is to present the results of each of the 5 Steps in the QA exercise and to report on compliance with the requirements of the Public Spending Code as established during this exercise.

The Public Spending Code was written specifically with Government Departments in mind and some of the terminology is very specific to that sector. In order to inform the QA exercise for the Local Government Sector a Guidance Note was developed for the sector to assist in providing interpretations from a Local Government perspective.

This guidance note was further updated for the 2015 reporting requirements and this updated guidance note (version 2) has informed the completion of the 2015 report.

Requirements of the Quality Assurance Aspect of the Public Spending Code

The Quality Assurance obligation involves a 5 step process as follows:

- o <u>Step 1</u> Drawing up inventories of projects/programmes at the different stages of the Project Life Cycle that have a total Project Life Cost of €500k or more.
- Step 2 Publishing summary information on the organisation's website of all procurements in excess of €10m, related to projects in progress or completed in the year under review. (The PSC originally required projects in excess of €2m to be published under this requirement but this has now been changed to €10m) A new project may become a "project in progress" during the year under review if the procurement process is completed and a contract is signed.
- Step 3 Completing the 7 checklists contained in the PSC. Only one of each checklist per Local Authority is required. Checklists are not required for each project/programme.
- o <u>Step 4</u> Carrying out a more in-depth check on a small number of selected projects/programmes based on criteria established within the Public Spending Code.
- Step 5 Completing a short summary report for the National Oversight and Audit Commission (NOAC). The report, which will be generated as a matter of course through compliance with steps 1-4 set out above.

STEP 1 – Project Inventory

This section presents the project inventories of Wexford County Council for projects with a total life cost in excess of €500,000. The inventory is presented in three stages as set out in the following table which also outlines the Expenditure Category/Band relevant for inclusion in each stage:

| Proj | ect/Programme Stage | Category/Band |
|------|-------------------------------|--|
| 1 | Expenditure being considered | Capital Projects between €0.5m - €5m |
| | 1000 | Capital Projects between €5m - €20m |
| | | Capital Projects over €20m |
| | | Current Expenditure programme - Increases over €0.5m |
| 2 | Expenditure being incurred | Capital Projects greater than €0.5m |
| | | Current Expenditure greater than €0.5m |
| 3 | Expenditure that has recently | Capital Projects greater than €0.5m |
| | ended | Current Expenditure greater than €0.5m |

The Project inventory, set out in the format described above, is included in Appendix A. (Appendix A – Inventory of Projects and Programmes Over €0.5m – 2015)

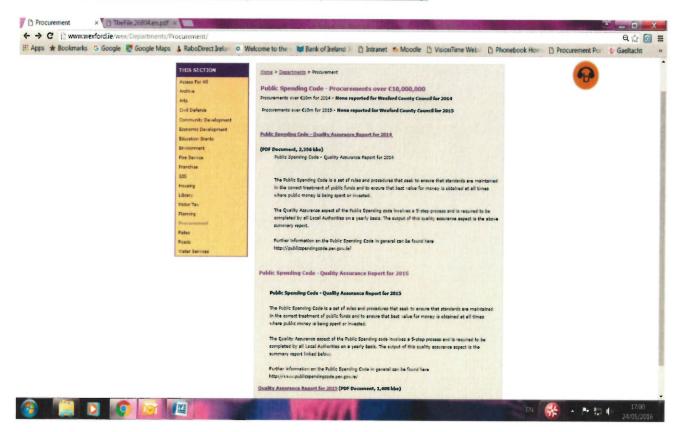

The Inventory contains 103 Projects under the three stages and comprises a total value of €224.58m. The following table provides an overview of the number of projects under each Project/Programme stage and under each of the categories in each of these stages. It also provides an overview of the Project Costs under each category.

| | Revenue Expenditure | Capital Expenditure | |
|------------------------------|------------------------|------------------------|--------|
| Project Numbers | > €0.5m | > €0.5m | Totals |
| Expenditure Being considered | 1 | 29 | 30 |
| Expenditure Being Incurred | 47 | 17 | 64 |
| Expenditure recently ended | 0 | 9 | 9 |
| Totals | 48 | 55 | 103 |

| | Revenue Expenditure | Capital Expenditure | |
|------------------------------|------------------------|------------------------|----------|
| Project Total Values | > €0.5m | > €0.5m | Totals |
| Expenditure Being considered | €0.58m | €46.60m | €47.18m |
| Expenditure Being Incurred | €96.69m | €60.27m | €156.96m |
| Expenditure recently ended | 0 | €20.44m | €20.44m |
| Totals | €97.27m | €127.31m | €224.58m |

STEP 2 - Summary of Procurements in excess of €10m

In compliance with the requirement to publish all procurements in excess of €10m on our website we confirm that the location of the publication is http://www.wexford.ie/wex/Departments/Procurement/

However, for 2015 Wexford Co Council has reported no projects in this category. The requirement relates to Procurements over €10m rather than Project Costs. Therefore while the project inventory reports on 2 projects over €10m, there is currently no single procurement within these projects that meets the reporting requirement in Step 2 of the QA process.

STEP 3 - Checklists

Step three of the Quality Assurance procedure for the Public Spending Code involves the compilation of a number of checklists. There are 7 checklists in all. Checklists 2, 4 and 6 are capital related checklists while checklists 1, 3, 5 and 7 are Revenue/Expenditure related.

The Checklists are informed by the Project Inventory and the following table outlines the approach taken for the completion of the Checklists

| Checklist Compl | etion aligned with Project Inventory | | | | |
|----------------------------------|---|--|--|--|--|
| Expenditure Type | Checklist to be completed | | | | |
| General Obligations | General Obligations - Checklist 1 | | | | |
| A. Expenditure being considered | Capital Projects/Programmes - Checklist 2 | | | | |
| | Current Expenditure – Checklist 3 | | | | |
| B. Expenditure being incurred | Capital Projects/Programmes - Checklist 4 | | | | |
| | Current Expenditure – Checklist 5 | | | | |
| C. Expenditure that has recently | Capital Projects/Programmes – Checklist 6 | | | | |
| ended | Current Expenditure – Checklist 7 | | | | |

All checklists as outlined below have been completed and can be found in <u>Appendix B</u> of this document.

- 1. General Obligations Not Specific to Individual Projects/Programmes.
- 2. Capital Projects or Capital Grant Schemes Being Considered.
- 3. Current Expenditure Being Considered
- 4. Capital Expenditure Being Incurred
- 5. Current Expenditure Being Incurred
- 6. Capital Expenditure Completed
- 7. Current Expenditure Completed

Findings on Completion of Checklists

While the responses included in the Checklist indicates a satisfactory level of compliance there are indications that there is room for improvement in certain aspects of the requirements. However, no specific serious issues/concerns were evident during the completion of this element of the QA exercise

STEP 4 - In-Depth review of a sample number of projects

Step 4 of the Quality Assurance Process involved the examining a sample selection of projects included on the Project Inventory to test the standard of practices in use and compliance with the Public Spending Code within the organisation.

Internal Audit In-Depth Checks

The Internal Audit Unit of Wexford County Council was assigned the task of completing the In-depth checks. The approach taken was to initially randomly select a number of projects from the inventory having regard to the various stages of the life cycle and the values of project listed and the business area of the local authority in order to have, in as far as possible, a good range of project types and sizes for review

The In-depth review has been completed and a list of the projects selected and a note of the number of recommendations which arose as a result of the in-depth check

completed. The projects, level of compliance and number of recommendations per project is summarised in the following table:

| Tab | ole 1.2 – Compliance Levels | | |
|-----|------------------------------------|--------------|-----------------------|
| | Project Reviewed | Compliance | Total Recommendations |
| 1. | Kilmore Quay Extension | No rating | 0 |
| 2. | Courtown Breakwater | No rating | 0 |
| 3. | Enniscorthy Residual Network | Satisfactory | 0 |
| 4. | New Ross Residual Network | Satisfactory | 0 |
| 5. | Enniscorthy Flood Defence Scheme | Substantial | 0 |
| 6. | Energy Efficiencies LA Houses 2014 | Satisfactory | 0 |
| 7. | Energy Efficiencies LA Houses 2015 | Satisfactory | 0 |
| 8. | Collection System Extension* | Partial | 1 |

*from 2014 QA review

A formal report on the In-depth review has been completed and submitted to the Management Team within Wexford Council. There is a general sense of satisfactory compliance with the Public Spending Code with only 1 specific recommendation arising in relation to the Collection System Extension – Follow up from 2014 Public Spending Code review. This is a Water Services Project, the contract for which would have migrated to Irish Water following the transfer of the Water Authority responsibility to Irish Water on 1st January 2014. The recommendation surrounds the post project review for this project. The Project was completed in mid 2014 and there seems to be a lack of understanding as to the responsibility for the Post Project Review and the recommendation is that this responsibility be determined as a matter of urgency and agreement reached on which party i.e. the local authority or Irish Water, is deemed responsible for the post project review and that arrangements be made to ensure it is completed at an early date. At the time of this review, the matter still remains outstanding.

Conclusion

This report has set out all the requirements of the Quality Assurance aspect of the Public Spending Code.

- A Project Inventory has been prepared outlining the various projects/programmes capital and revenue that were being considered, being incurred or recently completed by Wexford County Council in 2015.
- The relevant publication in relation to procurements over €10m has been placed on Wexford County Council's website.
- The 7 checklists required to be completed under the terms of the Public Spending Code Quality Assurance requirement have been completed and provide reasonable assurance that there is satisfactory compliance with the Public Spending Code.

The level of compliance reported would suggest there are elements of the expenditure life cycle that could be improved but nothing of a serious nature was highlighted during this compliance exercise.

- A more in-depth review of a sample of the projects contained in the Project inventory has been completed and further confirmed that there is, in general, satisfactory compliance with the requirements of the Public Spending Code. Eight Projects were examined and only one recommendation arose from the review. This recommendation related to the establishment of responsibility for compliance with the spending code for Water Services projects post transfer of the water authority to Irish Water. The recommendation arose in 2014 and has yet to be finalised.
- The final step of the QA exercise, as required under the Public Spending Code, is
 the compilation and publication of a summary report outlining the Quality
 Assurance Exercise undertaken by Wexford Co Council. The contents of this
 report provide an overview on the QA exercise completed which has been certified
 by the Accounting Officer, Chief Executive.

Overall the QA exercise has provided reasonable assurance to the management of Wexford Co Council that the requirements of the Public Spending Code are being met.

The Public Spending Code has only been recently introduced to the Local Government Sector and while the results of the 2015 QA are satisfactory it is acknowledged that additional improvements in both the compliance at project level and in the QA exercise.

It is noted that the Department of Public Expenditure & Reform has recently initiated training workshops for the Local Government Section and it is expected that relevant staff will attend these information sessions when they arise.

The ongoing development of specific guidance in relation to the QA requirements from a local government perspective and the experience gained by staff completing the exercise for the 2015 projects will further enhance the process for future years.

Notes:

- (a) The scoring mechanism for the above tables is set out below:
 - I. Scope for significant improvements = a score of 1
- II. Compliant but with some improvement necessary = a score of 2
- III. Broadly compliant = a score of 3
- (b) For some questions, the scoring mechanism is not always strictly relevant. In these cases, it is appropriate to mark as N/A and provide the required information in the commentary box as appropriate.
- (c) The focus should be on providing descriptive and contextual information to frame the compliance ratings and to address the issues raised for each question. It is also important to provide summary details of key analytical outputs for those questions which address compliance with appraisal/evaluation requirements i.e. the annual number of CBAs, VFMs/FPAs and post project reviews.
