Planning No.	Application Date	Application Type	Applicant	Area
		<p>containing battery energy storage skids, energy management system, electrical transformer and inverters units, CCTV and lighting to compound, underground cabling and ducting, boundary fencing, security entrance gates and all associated ancillary site development, landscaping and reinstatement works. The proposed Battery Energy Storage System (BESS) is a critical component of a broader sustainability initiative aimed at reducing carbon emissions and supporting the transition to renewable energy. The BESS will be integrated with the existing photovoltaic (PV) system to store surplus energy generated during periods of high solar output. This stored energy can then be utilized during periods of low solar generation or high energy demand, ensuring a consistent and reliable energy supply. A Natura Impact Statement accompanies this application</p>
