

Wexford County Council Public Library Service

Sensory Toys and Assistive Resources Catalogue

Rialtas na hÉireann
Government of Ireland

Introduction

Sensory Toys and Assistive Resources Collection

Wexford County Council Public Library Service is committed to providing quality information and resources to support parents, children and young people. This collection of toys and assistive resources has been established to respond to the growing demand for intervention services for children and young people with extra needs. We hope that it will help parents, health care professionals and teachers in working together to support the children in their care.

We anticipate that the service will offer children and young people opportunities to develop skills, increase confidence and promote independence. The collection has been carefully developed in collaboration with therapists working in the local community and national organisations that work to support children and young people with extra needs. This project was grant aided by The Department of Rural and Community Development through the DAF (Dormant Accounts Fund) programme. For more information and to book items please contact your local library.

Items can be borrowed by joining any Wexford Library. The collection is available to any individual who lives, works or goes to school in County Wexford. Terms and conditions of use apply. Membership is FREE.

Items in this catalogue can be requested at www.wexfordcoco.ie/libraries and collected by the borrower from their local library.

All items will be sanitised before each loan period.

Conditions of Use

- Membership and registration with your local library is free of charge to any individual who works, lives or goes to school in County Wexford.
- To register, users do not require a letter of referral from an Occupational Therapist, Speech and Language Therapist, Resource Teacher, Medical Practitioner or other professional working with them.
- Teachers and Special Needs Assistants **do not** need a referral letter from their school principal to register to borrow on behalf of the school.
- Equipment should only be used on the advice of a professional.
- Library staff cannot make recommendations on equipment.
- Children using the equipment should be monitored at all times.
- In the interest of Health & Safety standards, please inform library staff if equipment is faulty or incomplete.
- Items can be requested online, by phone or in person.
- The loan period is three weeks. The loan period can be extended by renewing the item online, by phone or in person.
- Assistive software can be used at home, in the classroom and in your local library on the public access computers by arrangement.
- Items may vary slightly from the images in this catalogue but will function in the same way.
- Items shown in this catalogue are current at time of publication (2021) but some items may be withdrawn or replaced.
- Batteries: Rechargeable batteries will be supplied by Wexford Library Service for use with all resources that require them. Batteries must be returned together with the resources at the end of the loan period.

Assistive Software & Technology

Software can be borrowed for use in the home or classroom. It may also be used by pre-booking a public access computer in your local library.

BeatBot

Who likes to move? BeatBo does! Get the dance party started by pressing BeatBo's tummy or any of the buttons on BeatBo's feet to activate fun songs, learning content and dance moves. Three modes - Dance 'n Move, Learning and Games, and Customised Sing-Along introducing letters, colours, counting, music, cause and effect and much more.

Bee-Bot

The perfect starting point for teaching control, directional language and programming.

Bee-Bot Obstacle Course

Challenge students to program Bee-Bot® through the obstacle course. Includes 10 wall pieces, 6 doorways and 2 arches to allow for variation and progression from lesson to lesson.

Buddy Button

A reliable, durable, colourful switch, with auditory and tactile feedback

Yellow Standard 63mm

Red Big 115mm

Environmental Control Inclusive Click-On 2

Offers all the options you expect from a mains controller and more. Fully electronic controls give more features and greater accuracy than other devices. With two fully independent channels, it can operate two mains devices simultaneously using the same settings. With easy touch controls and clear indicator lights, it is simple to choose the desired functions.

Bugatti Switch Activated

A super cool and detailed replica remote controlled switch adapted Bugatti Chiron.

Helping Others Fire Truck

Firefighter Erika and her partner, Firefighter Karson, race into action in the fire truck to lend a helping hand in their community. Off to the rescue! Press down on the driver's seat to hear realistic sounds, phrases, and fun songs about teamwork and helping others.

Jelly Beamer Twist with SLAT

Jelly Beamers include a wireless transmitter and receiver. Turn both components on, plug the receiver into any switch adapted toy or device, and you're ready for wireless access. Beamers are paired with their own receiver, meaning multiple devices can be used in the same room at the same time, without interference. Effective range is up to 9 metres.

Micro Light Switch

A very light touch switch for those who have limited movement. Activated by pressing down on the top surface with a feather light touch.

Nessy

Nessy programs are designed to help students of all abilities learn to read, write, spell and type, especially those who learn differently. Flexible enough to be adapted to how the individual learns, Nessy can be used to supplement an existing program or as a complete system of instruction. Every resource is graded so the student is not expected to know anything that has not yet been taught. Multisensory activities, reading and spelling are taught at the same time.

Pal Pad Switch

Pal Pads are flat switches, approximately 3 mm thick, yet are very rigid and durable. They are designed to be tolerant of rough usage. They come with a foam rubber backing you can attach to the back to minimize slipping. Ideal for those users who are distracted by audible clicks or those who require a very low profile switch and can exert very little pressure.

Large 114 mm x 152 mm
Small 64 mm x 102 mm

Paw Patrol Switch Activated

With realistic details and Chase moulded in the driver's seat, users can recreate their favourite moments from the hit TV show. The simple design of the included Pup Pad controller makes it easy to race Chase to the rescue - with switch adaption for two switches, drive Chase forward, or reverse and turn. Use any two 3.5mm switches. Contains small parts and requires supervision.

Penguin Racer Switch Activated

Watch as the penguins are hoisted up the ski lift ladder, then slide quickly down the winding slope before they do it all over again. Releasing the switch lets the penguins stop for a breather. Use a 3.5mm switch. Contains small parts and requires supervision.

Reading Eggs

Reading Eggs make learning to read interesting and engaging for children, with great online reading games and activities. Children will enjoy the games, songs, golden eggs and other rewards which really help motivate the children to keep exploring and learning.

Switch USB Box

The switch box sets the standard in ease of use and flexibility by automatically detecting the software you are using and setting up the switches for you. Works with practically all accessible software. You can have any key press or mouse click you like for each switch. Automatically detects the software you are using. Sets itself up automatically when you open a new program.

Thomas and Friends Remote Control

A switch adapted toy for all the Thomas fans. The easy to use remote control allows the child to move Thomas forwards and backwards. For best performance, use on a hard flat surface or low pile rug or carpeting.

Touch Typing TTRS

TTRS is a highly accessible and award-winning multi-sensory programme that teaches touch typing, reading and spelling at the same time. The programme can be used to support learning in children aged 8+ with dyslexia, dysgraphia, ASD, ADD, ADHD, Down syndrome and other special educational needs.

Trotting Pony

At a simple push of a button on his long lead rein, this little pony trots forward or pauses to neigh, shaking his thick mane and tail. He has a lovely, shiny coat and comes with a pink brush for grooming.

Unicorn Race

Switch it on and the small unicorn figures will automatically ascend the staircase towards the slide. When they reach the top, each unicorn will then descend along the winding path, completing a circuit that leads them through an arch in the centre of the unit before they finish at the foot of the stairs, ready to repeat the process.

Fine Motor Skills

These items aid coordination of muscles, bones and nerves to produce small, precise movements. Some may also support literacy, numeracy, language development and problem solving.

Basic Skills Board

Getting dressed won't be such a puzzle once zipping, buckling, snapping, lacing and tying, and other dressing skills are mastered. Each skill is contained on a separate, wooden puzzle piece for easy practice.

Bee Hives

Six friendly bees, with little felt wings and cute smiles, and their pods will help children to buzz your way into a fine motor skill, colour-matching adventure.

Busy Woodpecker

Develop fine motor skills by spinning the windmills and making Mr. Woodpecker tap against the tree. While children play, they can be encouraged to think of a story about what is happening inside Mr. Woodpecker's nest to help develop their language skills.

Construction Set

With 48 wooden pieces (including nuts, bolts, drilled bars to connect, and a child-size screwdriver), this classic building set gives children all they need to create and build.

Design & Drill Robot

Develop creativity and support STEM learning in children with this 3D, Design & Drill® robot.

Design & Drill-My First Workbench

Power up imaginations with this creative construction set giving endless hours of unplugged play that supports STEAM learning through artistic play and basic engineering.

Doorbell House

An incredible toy to help with fine motor skills, hand eye coordination and help understand cause and effect.

Double Handed Tracking Board-Stars

Promotes hand-eye coordination and handwriting skills.

Easy Grip Crayons

A set of 6 crayons with easy grip plastic handles.

Red, yellow, blue, pink, green, black

Finger Strengthenener

Use motor planning, tactile discrimination, and small muscles to move the gumballs into their colour-coded chambers. Tiny fingers don't even notice the workout their muscles are getting.

First Shapes Puzzle

A great activity to encourage hand-eye coordination and visual perception skills.

Froggy Feeding Fun

Develops fine motor skills and strengthens muscles for the pencil grip.
Promotes colour recognition and counting practice.

Giant Wooden Lacing Beads

Good for developing manipulative skills and encouraging early mathematical understanding.

Graphical Exercise Set 1

Sets of 3 manipulative boards to improve hand motoric, precision of movements and visual-motoric coordination.

Graphical Exercise Set 2

Hoot the Fine Motor Owl

Use the coloured coin counters with different functions on the owl to help develop strength, hand-eye coordination, grip and scissor skills through five fun hands-on activities. Hoot, Hoot!

House Pets

This extra thick wooden puzzle includes three big puzzle pieces with jumbo wooden knobs for easy grasping. A great activity to encourage hand-eye coordination and visual perception skills.

Lacing Blocks - Safari

Promotes hand-eye coordination, fine motor skills, pre-writing skills and mathematical skills. Encourages creativity and story telling.

Large Farm

Seven favourite farm animals and a farmer stand out against the big red barn in this eight piece wooden puzzle. Encourages hand-eye, fine motor and visual perception skills.

Large Peg Puzzle-Vegetables

High quality wooden puzzles with large wooden handles for easy use.

Lock Latch Board

Lock Latch board is all about learning how to use and open different kinds of locks. There is a combination lock, key, T-bar and latch. Find out what's inside by opening the different locks.

Magnetic Maze for Two

Develop multiple skills using these magnetic activity boards. They will help children develop number recognition, counting skills and improve their hand-eye coordination and manual dexterity.

Magnetic Number Maze

Magnetic Turtle Maze

Develop multiple skills using magnetic activity boards to help develop number recognition, counting skills and improve hand-eye coordination and manual dexterity.

MegAbility Beads

Encourages fine motor, large motor planning, coordination and eye-hand skills. Use for stringing, colour recognition, motor planning and as a pull toy.

Moogy

Moogy's bright colours and charming appearance make him into a great friend who will help children learn to master zips, buttons, buckles and laces.

Rainbow Balance

Discover the basics of balance with this colourful classic rocking toy. This will teach colour and number recognition, matching and sorting, fine motor skills, and develop problem solving skills.

Round & Round Goes Mr Bear Wall Game

Feel the gears go click-clack as the train wheels spins. This engaging toy stimulates hand-eye coordination and helps children to learn about the concept of cause and effect as the gears rotate.

Ruff's House Teaching Tactile Set

Builds fine motor sensory play skills, plus teaches children about matching, taking turns and sharing.

Shape Sorter Popper

Teaches basic shapes and develops early maths skills through sorting and matching. Practices fine motor skills.

Snap-n-Learn Matching Dinos

Children will have endless hours of fun and build up their fine motor skills as they play with these colourful dinosaurs. Making up stories as they play will support language development.

Sound Puzzle Vehicles

Place a vehicle puzzle piece correctly in the puzzle board and listen to it toot, beep or rumble. Eight great sounds and a full colour, matching picture beneath the eight wooden pieces.

Sound Puzzle Musical Instruments

Place an instrument piece correctly in the puzzle board and listen to it play.

Super Sorting Pie

Fruity pie teaches key early numeracy skills as children sort the fruit counters. Place the sorting cards into the pie base to provide visual cues. Jumbo tweezers will help to reinforce motor skills.

Take Along Tool Kit

This 24 piece set includes wooden nails, screws, nuts and bolts for hours of creative, "constructive" fun. All will love using the hammer, wrench, and screwdriver to build their projects.

Techno Jumbo Toolkit

This building toy stimulates coordination as well as logic and creativity, helping children to understand basic principles of mechanics while enjoying themselves.

Theraputty Set

Designed to meet a wide range of strengthening needs, theraputty can be squeezed, stretched, twisted or pinched.

Yellow - Soft

Red - Medium soft

Green - Medium

Blue - Firm

The Wheels on the Bus Sound Puzzle

While the wheels on the bus go 'round and 'round, children will be developing their sorting skills and fine motor skills.

Twist and Turn Puzzle

This educational wooden toy provides children with an introduction to different shapes, colours and textures. Twist and turn each of the brightly coloured wooden squares, triangles and circles to slide down pegs until they reach the base. As an added twist, the wooden squares must be slid down the peg in order of size, biggest to smallest!

Wooden Lacing Farm Animals

Develop hand-eye coordination, fine motor skills and attention skills with this great activity. With cute farm animal art on both sides, it's fun to practise lacing and tracing skills with this wooden set.

Wooden Writing Slope

This board has a purposefully made slippery surface to ensure children use both hands, one to hold the paper in place, the other to write, complete with a silicon ridge running along the edge to stop the paper and books from falling off.

Writing Warm—Ups Tool Kit

Fun tools designed for finger warm-up “exercises” before handwriting activities.

Gross Motor Skills

These items aid the use of muscles that support movement of the arms, legs and core.

Balance Board-Maze

Maze Balance Board is an intermediate balance board that improves balance to a higher level.

Bilibo-Purple and Yellow

The Bilibo's round shapes and bright colours will stimulate curiosity and encourage inventiveness. Children can move in them, rocking and spinning to support development of their gross motor skills.

Disc O Sit Junior 32cm Cushion

An inflatable, dynamic air cushion that mimics both the movement and shape of a therapy ball.

Disc O Sit Large 39cm Cushion

This cushion is smooth on one side and bumpy on the other side. It is a valuable support to keeping good posture, and can be used on the ground as a tool to perform balance and motion exercises.

Floor Surfer Scooter Board

The Floor Surfer has been developed in partnership with children's physiotherapists. The raised front part of the Floor Surfer supports the coccyx when the child is sitting and the sternum when child is lying down. Scooter boards can be used to develop skills in the following areas, upper body, core strength, motor planning activities and as part of a sensory diet.

Forever Up Down (Small)

Move the infinite track round and round but keep the ball on the track with three dimensional movements.

Giant Air Board Blue

A unique balancing board with a hard surface on a soft inflatable base, ideal for exercising motor control and strengthening muscles in the ankles, legs and upper body.

Gorilla Gym Kids Deluxe 6 Piece Gym

The Gorilla Gym is a great way to encourage children to develop their gross motor skills and will also support sensorytherapy.

The Gorilla Gym conforms to both **ASTM F2276-2010 - Standard Specification for Fitness Equipment** and the relevant parts of **ASTM F: 1148 - 09 Standard Consumer Safety Performance Specification for Home Playground Equipment**.

These safety tests include a rigorous process of testing for various considerations, including spacing between adjacent swing elements, hooks, head and neck clearance, hangers, minimum ground clearance, endurance testing, as well as tests for lead and Phthalate content.

Adults should read instructions carefully to ensure the safe set up of Gorilla Gym and monitor and ensure the safe play of children and young people using the equipment.

Gym Ball-45cm

These exercise balls are used to improve flexibility, coordination and gross motor skills. Also used for core strengthening, mobility exercises, and balance training.

Gym Ball-55cm

Handtrainer Eggserciser

These solid egg shaped gel balls are designed to strengthen weakened or injured hands and wrists. They help improve handgrip strength, finger dexterity, and muscle tone.

ExtraSoft

Medium

Soft

Firm

Hedgehog Stones

Hedgehog stones are a set of 6 hemispherical shaped objects with sensory points on the curved area for children to step on for sensory, balancing and massaging purposes.

Move & Sit Cushion Junior & Senior

Move and Sit provides movement and a lot of tactile stimulation without ever leaving your seat! A perfect seating option for children who have a hard time staying put, and for those who aren't really sure where their bodies are in space. Track with three dimensional movements.

Peanut Physio Roll-55cm

Physio rolls provide greater stability than a round ball with the saddle shape making it easy to straddle, sit on or roll over. Designed to improve balance, gross motor skills and core strength, can also be beneficial for those with attention or movement needs.

Rainbow River Stepping Stones

Each stone features a different slope and texture that challenge balancing skills while providing sensory stimulation to children's feet. The game's difficulty level can be adjusted through 3 directional points and the ability to stack two stones together.

Rody Red with Rocking Base

The Rody horse is a valuable support to help develop balance, movement and coordination skills.

Roller Seat

Forwards or backwards, it doesn't make any difference with the symmetrical soft roll board because its seat always faces the front. This toy will strengthen children's muscles, encourages them to move and promotes their coordination skills.
Only suitable for children aged 1-3 years old.

Rotago 2

Rotago is a fun way to build balance, coordination and movement skills. Just stand on it and try to go in circles without falling off. Rotago improves the strength of postural and abdominal muscles with fun and motivating exercises.

Rotation Board

Rotation Boards encourage simple manual manoeuvres providing the sensation of rotation.

Large & Small

Scooter Board 43cm

Scooter boards can be used to develop skills in the following areas, upper body and core strength, motor planning activities and as part of a sensory diet.

Seesaw

Classic play equipment in a unique new design. Pliable synthetic rubber domes on the underside of the seesaw provide a softer, more dynamic movement.

Sens 'o' Roll

Similar to a peanut roll where most of the movement occurs forward and backward giving more stability than a gym ball. This Sens'o'Roll has a bumpy surface all over for a sensory and tactile experience.

D55 cm, L 90 cm.

Sensyball Large 28 cm

The Sensyball balls are soft and pleasant to touch. Thanks to their bumps they provide a healthy stimulation of the pressure points.

Sit 'n' Gym 45 cm & Sit 'n' Gym 55cm

The Sit'n'Gym, a modern reinterpretation of the chair, provides the same beneficial effects of correct posture maintenance as the classic physiotherapy ball. It is equipped with small feet, which help to stop the ball rolling around. Children who crave movement find it very difficult to concentrate when sitting still. This cushion helps to satisfy this sensory need for movement.

Squeeze Foam Blocks: Set of 4

These foam blocks are used during hand therapy to perform joint mobilization exercises for the treatment and diagnosis of hand injuries and disorders.

Tactile Massage Ball Therasensory 65cm

This 65cm gym ball has a knobbly surface all over to relax and stimulate muscles and provide tactile feedback . These exercise balls are used to improve flexibility, coordination and gross motor skills. Also used for core strengthening, mobility exercises, and balance training.

Tai Chi Balance Board Large

The balls can run through 3 different mazes. The inserts can also be used for hand exercises. Not suitable for children under 36 months

Speech, Language & Social Skills

These items support verbal and non-verbal communication
to aid interaction and communication.

101 Games for Better Behaviour

This practical book includes games that will help to explore the five areas highlighted in the SEAL resources: self-awareness, managing feelings, motivation, empathy and social skills. Through these exciting games and activities, children will learn that an effective community is built on co-operation, tolerance and enjoyment.

101 Games for Self-Esteem

101 Games For Self-Esteem will enable teachers to share the fun, humour and friendship of games.

101 Games for Social Skills

This book will help children to develop positive relationships. It teaches looking, listening, speaking, thinking and concentration skills.

ADHD Classroom Kit in a bag

These practical resources have been designed in conjunction with teachers and learning support assistants to support children who have ADHD. These resources focus on behaviour, impulsiveness, concentration, noise levels, rewards and instruction.

Better Builders Emotions

Better Builders® Emotions feature 6 dramatic play characters. The faces express 6 distinct emotions to which children can relate: happy, sad, angry, surprised, confused, and scared. The ability to recognize and understand these emotions and their association with colours provides invaluable depth to everyday play. Create new personalities and allow for personal connection by changing the friction fit hairstyles.

Bunny Boo

Is the rabbit looking through the round hole or through the star shaped one? Is it standing on top of the yellow, the red or the blue block? Some challenges may look very similar, yet the solution can be completely different depending on how far the ears of the rabbit stick out. Bunny Peek-A-Boo is a fantastic and fun introduction to concepts such as above/below, inside/outside, visible /hidden, etc.

What Are They Thinking?

Inspiring and creative resource for developing empathy, understanding feelings and recognising emotions. Includes a CD-ROM with all the images to print out as individual worksheets. A valuable resource for SEAL.

Conversation Cubes

Use in character development activities, brainstorming before writing, and to build oral language, social and listening skills, activity guide included.

EMO Moogy

This game will help children identify their emotions and disclose their feelings. They will find out why we feel happy, sad, surprised, bored, satisfied, angry, disgusted and frightened. Moogy undergoes mood changes just like any other children. Knowing their emotions and causes will assist in finding a solution for minor emotional conflicts.

Emoji Cubes

Develop early learners' self awareness, social and emotional skills with these brightly coloured cubes. Images and prompts will encourage children to think about how they're feeling and to talk about their emotions.

Emotiblocks

A set of characters with interchangeable pieces which enable children to freely create likeable characters: there are over 100 possible combinations. This game comes with activity cards and is an entertaining tool to help children become familiar with the main emotions.

Emotional Faces Pack 2 (20cm)

Set of 6 inflatable balls, each with a face showing a different emotion. These balls are fun to use and especially appealing for younger children.

Fan: What I Can Do When I Feel Angry

This is a really useful tool to support children and give them options to behave appropriately when they feel angry. The fan will help them work through and focus on the suggestions that most suit the child's environment or setting.

Fan: I need...

Encourage individuals to communicate by showing them the pictures and verbalising the response.

Fan: Positive Praise

The Positive Praise fan reinforces positive behaviour and helps the child to feel good about themselves. When this happens, they are more likely to repeat the positive behaviour that they were praised for.

Fan: Positive Rules

It's easy to say no, don't or stop. Use this fan to provide a visual clue to tell the child what you would like them to do in relation to social rules and instruction in a positive way. If a child is shouting, use the 'use your indoor voice' symbol or if a child is taking turns then use an appropriate petal and pass the fan backwards and forwards between the children when it is their turn. This fan can really help children to understand and remember positive social rules.

Fan: Staying Safe

10 petals each with key messages to support children and young people to understand the key rules of keeping themselves safe. The fan looks at safety issues such as playing outdoors, not accepting gifts or sweets, not accepting lifts, not hugging a stranger and not playing in dark or lonely places. Internet safety awareness is supported as is telling a trusted adult of any worries or concerns that a child may have.

Fan: What I Can Do To Calm Down

Children often revert to poor or unacceptable behaviour when they do not know how to self manage their emotions. This fan supports children to find alternative behaviour that may help them to feel better and calmer. There are 9 ideas to help children and young people recognise how to manage their emotions by undertaking their own calming techniques.

Find & Feel 3D Shapes and Tiles

Deal out the tiles and then ask the children to reach into the bag to feel and find the corresponding wooden shape. Includes geometric and object shapes.

Fun Deck (Super): 200 more Sight Words plus Sentence Building

Help children expand their sight word knowledge with 200 More Sight Words Super Fun Deck containing 465 word cards and punctuation cards. Increase sentence building skills with capitalized words and punctuation marks for use in making sentences.

Fun Deck: All About You, All About Me

These questions and more will help your students sharpen their ability to ask and answer basic questions. Students can use the 56 question cards to talk about themselves and learn about others. The deck includes basic questions, open-ended questions, content cards, and game ideas.

Fun Deck: Body Awareness

Includes 56 illustrated cards featuring Otis, the OT Gorilla, in different body positions. Enjoy working on body scheme, spatial awareness, and visual perceptual skills while imitating Otis. Choose a card with the skill you want to improve, and have fun playing the suggested games.

Fun Deck: How Would You Feel If...

How Would You Feel If... Fun Deck has 56 entertaining cards to help students discuss and/or write about their feelings using a variety of situations. Each card has a colourful illustration with a "How Would You Feel If..." question.

He's Not Naughty

This distinctively illustrated book is a quick and quirky way to explain to friends and family why children with autism behave the way they do. Unique visuals make this the perfect book for children to empathise and get a sense of what it's truly like to have autism.

It's Raining and I'm Okay

This bright and reassuring picture book offers calming strategies, useful symbols for pre-readers, and downloadable notes to support children who feel anxious out of the home.

“Oh no! It's raining! Oh no! People everywhere! Oh no! It's getting noisy! But I count to ten, take a deep breath...and I'm okay.”

Magic Rainbow Ball

The balls can be moved around using the empty hole, which allows the puzzle to be jumbled. Move all of the balls back into their proper places to solve the rainbow ball puzzle. Helps to improve logical ability to judge, develops patience and is also a useful decompression tool.

My Book of Feelings

This picture book is ideal for children to help them understand why they might experience different emotions, and what they can do to help them manage their emotions in a positive way. Written in simple language, this book will be an excellent tool for any child who finds it difficult to understand their emotions, particularly those with attachment difficulties, learning or developmental disabilities.

Full Page Reading Overlays

Reduce visual stress when reading books, exam papers and documents with coloured page overlays.

Rory's Story Cubes

Rory's Story Cubes® is the creative story generator that encourages creativity, develops social confidence, enhances language development skills and supports social connections.

Self Awareness Activities Talkabout Cards

This set features 20 group games to encourage self awareness and effective social skills. Fun, quick and easy to play, this game features the familiar Talkabout drawings to provide visual cues.

Sing-Along Nursery Rhymes

Sing along with favourite characters like “Humpty Dumpty” and “Jack and Jill” with this unique wooden peg song puzzle. Match the six illustrated wooden puzzle pieces to the pictures in the beautifully carved wooden puzzle board to hear six different nursery rhymes.

Socially Speaking Game

This brilliant board game teaches and reinforces social skills in a fun way. The game focuses on social interaction in three key areas: home, school, and the wider community. Children are given the opportunity to practise vital skills such as listening, turn-taking, asking questions, making telephone calls and conveying emotions. Ideal for 3-6 players.

Tactile Maxi-Memory “Everyday Life”

A large format tactile memory game with different textures featuring real images of everyday life. Used to work on tactile discrimination, visual memory and attention through the sense of touch. You can play both the classic and tactile memory games. Inspired by Montessori methodology.

Talkabout Board Game

The Talkabout board game is a journey through the week where a player will encounter a number of different social skills tasks that need to be completed in order to get to the end of the week. The purpose of the game is to work together. There is no winner. Once a player has got to the middle of the board, their role is to help the other to get there too. For 2-6 players.

Who Am I? Talkabout Cards

The Talkabout 'Who am I?' cards have been designed to be used with an individual or small group to practice good communication and social skills. The cards help to encourage group conversation and allow children to practice and improve good social skills with others.

Play & Life Skills

These items aid the development of cognitive, social and physical skills.

Bilibo Game Box: counting, sorting, matching

Take six Mini Bilibos, add a customizable bouncing dice with 36 colour chips, and you have a fascinating construction set for countless games and activities. Match colours, play tiddlywinks, stack and balance, flick and aim, throw and catch, sort, count and learn, roll the dice and invent your own games.

Colour Cards: Basic Sequences

48 cards illustrating everyday activities in 3 step sequences. These demonstrate simple sequentially related actions which help establish basic concepts and encourage an understanding of order and direction.

Colour Cards: Listening Skills

Indoor Sounds (CD)

40 cards and sounds to enhance language development. Commonly heard sounds are accompanied by easily recognised pictures. Contains human sounds, everyday sounds, activity sounds, leisure sounds, animals and birds, out and about, having fun, and transport sounds. Indoor Sounds (CD) and Outdoor Sounds (CD)

Colour Match Eggs

A plastic egg box containing a dozen eggs which each pull apart to reveal brightly coloured centres with numbers to match with their corresponding pegs and holes. Ideal for learning to count, number recognition and colour matching.

Dress Up Mr Dragon

Each element of dressing is represented on Mr Dragon. His hat has a hook and loop closure in two places, under his chin and on the back strap. The cape uses a clip belt. The non removable waistcoat has three buttons while the second portion of his waistcoat has 4 mm poppers and the bottom of his vest has a zip. His shoes develop lacing and tying skills. The cape, hat and shoes are removable.

Hands On Play and Learn Ball: Icebreaker/ Conversation Starter

A fun way for children to learn more about each other, by talking about themselves, while playing toss and catch. This is an ideal way to combine cognitive and social skills development and physical exercise.

Manipulative Doll Boy, 75cm

These are large soft dolls dressed in several layers of clothes with different fastenings (wooden and plastic buttons, studs, Velcro, zips, laces and buckles).

Manipulative Doll Girl, 75cm

Number Matching Maths Bus

This wooden school bus grows with a child's developing skills and interests. It features a top that lifts off, number pieces and maths symbols to fit through the matching holes, and cards showing numbers and equations to match and solve.

Sand Timer 5 Minute (Blue, Orange & Blue)

Sand timers offer a traditional visual demonstration of the passing of time. Easy for children to understand and ideal for use in timed games, for timing experiments and completing tests, or to measure specific periods of time for activities such as reading, creative writing or tidying up.

Sandtimers: Set of 5

Set includes 30 sec, 1 min, 3 min, 5 min and 10 min.
Each timer is 9 cm high.

Stacking & Lacing Caterpillar

Children will love this colourful caterpillar. Help them learn to count either by colour or by stacking the rings. Each ring, like the caterpillar's head, becomes a chunky wooden bead when the toy is used for lacing activity. The creature's nose or tail can serve as a lacing stick.

Sensory & Tactile Skills

These items aid neural development and support learning, language development, problem solving skills and social interaction.

Bubble Fun Machine

The rotating bubble wand wheel blows bubbles and the wand has various shapes which are great for active and imaginative play.

Cat Lap Weight

Weighted products are calming, improve focus and attention, improve body awareness and help to decrease sensory seeking behaviours. Weighted toys are useful as part of occupational therapy for children living with ASD, stress, ADHA and anxiety.

Dark Den

The Dark Den offers a safe space or cool down spot for children who may become overwhelmed by sensory stimuli. The children can relax and take time to calm and regulate their system.

Dark Den Accessories Pack

This offers a collection of sensory resources for use in a Dark Den or any darkened environment, items included will help to support relaxation and regulation of the sensory system.

Colour Night Light Projector

The projected colour light aids relaxation and helps to support sleep in children. The light casts images on ceilings and walls and promotes a calming relaxed cosy atmosphere.

Glow Construction, 12 Cubes

A set of construction bricks in two sizes that light up and change colour when they are turned. Children will love turning the blocks in their hands to see which colour they will change to next.

Jumbo ABC 123 Rug

Children will have jumbo amounts of fun exploring and learning the alphabet, numbers, colours, and shapes on the Jumbo ABC and 123 Rug.

Kaleidoscope Lamp

Once activated, coloured lights shine onto the wall whilst the specially shaped light piece begins to turn, causing the colourful patterns to move around the projected area.

Lap Weight

Helps to stabilise fidgeting legs. The weighted lap pad provides reassuring downward pressure to the upper thighs while the user is in a seated position.

Laser Twilight

The laser star projector will fill any dark space with a super sharp spectacle of animated stars and cloud formations and even includes the odd shooting star. Includes a new function whereby both the blue clouds and the green laser stars can be independently switched on and adjusted.

Lava Liquid Circles

This round sensory gel tile provides a wonderful visual and tactile light up experience that really will encourage children to move around and explore the surfaces.

Lava Liquid Tile Mix Set

This is a visual and tactile light up experience that will encourage movement and exploration. The tiles will withstand jumping on and strenuous use by children and adults as well as the weight of wheelchairs. The set can also be used on a table top of any flat surface. Simply apply a little pressure to create a dramatic visual effect.

Lizard Lap Weight

This weighted lizard is recommended for all children, but was designed specifically for children with ADD, ADHD, ASD, and anxiety. The weight can help children remain attentive in class, focus during homework, alleviate excess energy or provide the necessary calmness for bedtime.

Resistance Fish Tunnel

Promotes core strengthening, better breathing, calming and improved focus and attention. The tunnel also helps to develop spatial awareness, coordination and gross motor skills. Pulling is not recommended for children who exceed 45 kg.

Sensory Bags with Windows - Set of 6

A set of 6 Sensory Bags, each bag with a window through which you can see what material is inside. In each bag there are different hidden treasures that need to be found.

Sensory Blocks

A beautiful set of 16 building blocks with natural hardwood surrounds and a variety of different centres that will stimulate the senses. Some are filled with liquid, others with glitter, beads and sand. The blocks can be used for building, for creating patterns or as a stimulus to children's creativity.

Snuggle Roll

This is a tactile memory foam filled cylindrical cushion with a soft machine washable micro suede cover that can be zipped off for cleaning and washing. The Snuggle Roll can be squeezed tight for a snuggle or used to support the head and neck or feet. Size 40cm x 15 cm

Soft Sea Whale Cushion

Large Soft Whale Cushion, ideal for soft and floor play.

Stress Ball (Set of 3)

These soothing and sensory balls are great as fidget toys, stress balls, or just to play. They have the signature Rubbabu velvety feel. Squishy and soft, this toy is safe from birth up. It has a fuzzy tactile surface that feels great to the touch.

Vibrating Octopus Pad

This colourful fun-shaped vibrating pad can help to calm children who need more sensory feedback. With the soft furry face, smooth eyes, tactile tentacles, springy hair, vibration option and the weighted feel of the pad, this item can also help to develop tolerance of different sensations.

Weighted Blankets

Made in a soft, breathable material to reduce potential overheating for the child, this weighted blanket is ideal for those who need help with calming down, relaxing and sleeping. It can be used in a range of home or school settings, for example, as a calming strategy at school, in the car, or for helping with settling off to sleep.

3lb (1.36kg) 5lb (2.27kg) 8.8lb (4kg)
